# Return to Paris

The big French international construction equipment show Intermat opens its doors this year to visitors for the first time since April 24th, 2018 as the 2021 event was sadly cancelled due to the Pandemic.

This time around the show squeezes into the calendar just before the start of the build-up to the Paris Olympics, however it will not be quite the same as it was in the past in terms of the size and number of crane and access companies attending, with a number deciding not to exhibit.

For example, when it comes to the big three global mobile crane manufacturers only Liebherr will have a stand, while neither of the two largest telehandler manufacturers will be present. There are however plenty of telehandler stands to see and thankfully the companies that are exhibiting tend to be among the most innovative in the marketplace.

Access fares quite a bit better with Genie flying the flag for the big western manufacturers alongside Chinese companies such as LGMG, Zoomlion and Sany. The strongest display comes from Italy, with Locatelli, Terex and Marchetti representing the cranes along with a dozen or more Italian aerial lift manufacturers.

The following pages include maps of the main crane, access and telehandler areas - Hall 5b and Outside area 5 although note that there are also a few in outside area 6 - along with various exhibitor lists both alphabetical and by product type.

This year we are not producing a print version of the guide, so remember to download the digital guide before you arrive at the show - a good idea for planning an effective visit - or you can access it online while you are there.

The Vertikal stand can be found in Hall 5b near the doors to External area 5. We have a large team present this year so do please drop by and say hello.

See you there.

**Leigh W Sparrow**

## De retour à Paris

La grande exposition internationale Française de matériel de construction ouvre ses portes, pour la première fois depuis 2018, le 24 Avril. Le salon de 2021 avait été annulé en raison de la pandémie. Cette année les dates de l'exposition tombent pendant la période de préparation des Jeux Olympiques 2024 à Paris et, malheureusement, pour l'heure il semble que cela ne va pas être un grand salon lorsque l'on regarde le nombre d'exposants de grues ou plateformes alors que plusieurs d'entre eux ont décidé de ne pas participer cette année.

Par exemple lorsque l'on regarde les trois grands constructeurs de grues mobiles, seul Liebherr aura un stand alors qu'aucun des plus importants constructeurs de plateformes ne participera à cette exposition. Cependant, heureusement, la plupart des autres constructeurs de chariots télescopiques seront présents et il se trouve qu'ils sont parmi les plus innovants.

Les pages suivantes incluent les cartes de zones "Grues et Plateformes" Hall 5b et zone extérieure 5 ainsi que celles de différents exposants de matériel de travail aérien, établies par ordre alphabétique et type de matériel. Cette année nous avons réduit le nombre de visites en fusionnant certaines d'entre elles.

Le stand de Vertikal se trouve dans Le Hall 5b près des portes allant vers la zone extérieure 5, n'hésitez pas à venir nous dire bonjour.

Cette année, cependant, nous n'avons pas prévu d'imprimer une brochure du guide, téléchargez la avant votre arrivée.

# JOIN US FOR THE UK & IRELAND'S LIFTING EQUIPMENT & WORK AT HEIGHT EVENT

For 2024, we are heading to our new venue, Newark Showground in Nottinghamshire where professionals from the industry will see the very latest that the Crane, Aerial work platform and Telehandler market has to offer.

If you want to get your products in front of the key buyers, end users and purchasing influencers, it's the place to be.

FACE TO FACE  
WITH INDUSTRY  
PROFESSIONALS

DEMONSTRATE

# We master gravity

This is what superior lifting looks like. Delivering cranes with heavy lifting capacity and various configurations we master the toughest of lifting challenges. With our cranes any job becomes a safe and feasible task, any lift can be conquered.
