Vertikal Days at Haydock Park

Vertikal days

The second Vertikal Days event for the lifting industry - Cranes, Access and Telehandlers - will be held at Haydock Park on June 25th and June 26th. There are more exhibits than ever this year, with a good number of product launches and worldwide debuts.

The event is very relaxed with the focus being on networking, making new contacts, learning about new products and ideas and in many cases trying out the equipment on display.

Keep your money in your pocket. Entry to the event is free of charge to anyone who works with the products and services on display, and from the moment you arrive the only money you will need will be for buying equipment. All refreshments, coffee, tea, snacks and lunch is provided. Yes the free lunch is here.

Times: Wednesday 25th June
10:00 am - 17:30
Thursday 26th June
10:00 - 17:00

Where? Haydock Park just off Junction 23 of the M6

How?

- Register online at www.vertikaldays.net and pick up your badge at the gate
- Obtain a VIP ticket from your supplier - if they are exhibiting complete the invite and swap for a badge at the gate.
- Turn up complete a registration form and swap it for a badge

Note: We would appreciate it if you could register online in order to provide some indication for catering.

Meetings and Seminars

There are a number of meetings being held during the two days of the event. Here are two open to all:

Tower crane best practice safety seminar

The CPA is organising a short, sharp seminar to launch its 'Best practice guide to Tower Crane safety, inspection, maintenance and thorough examination' at the event. The seminar on Wednesday June 25th, is free to those who register and will include several experienced speakers including Tim Watson, Syd Appleyard chairman of the Tower Crane Interest Group and Ian Simpson of the HSE. It starts at 10:30am in the Leverhulme suite.

IPAF Rental open meeting

The International Powered Access Federation is holding an open meeting for all rental company members in the Leverhulme suite on Wednesday 25th June at 15:30.

Closed meetings

A number of closed meetings are also being held by IPAF and other associations, companies and groups. If your company or

association wishes to hold a meeting, please contact us and we will do all we can to help you. There are meeting rooms at Haydock Park as well as at the Holiday Inn and Thistle hotel nearby.

Exhibitors and their exhibits

AGS

AGS, the French-based crane electronics safety specialist, will display its AC3 ID system that manages and displays the cranes operating parameters including: load and moment information and security management; date, time, temperature and wind speed; complex and multi-forbidden areas; anti-collision for multi-interferences on multi-cranes sites and high capacity memory to record crane working data.

It will also show the AN3 anemometer; the SF3 - a 100 hours back-up elevated obstruction lighting system for cranes working near aerodromes; the BS3 - a wireless network tying all of the components together and the VG3 - a wireless video system with camera fitted on the tower crane's trolley.

AK products

Located in the Market Place, AK products supplies a wide range of work wear and promotional items along with a full line of stationery and other office products.

ALLMI

The Association of Lorry Loader Manufacturers and Importers is hosting a demonstration area supported by its Members, each

displaying one of its latest models. Members showing equipment include:

- Hiab
- Hyva
- Fassi/Crane Centre
- HMF
- Effer/Britcom
- PM
- Palfinger/TH White
- Terex Atlas

Allan Access

Allan Access builds a range of van and Land-Rover mounted aerial work platforms, while representing, Niftylift vehicle mounted lifts, Terex Utilities and Socage. The company will unveil a new 14 metre van mounted lift, mounted on a 3.5 tonne van, while still leaving 300kg to 450kg of payload.

ASI

ASI represents German-based truck mounted lift manufacturer Ruthmann and will show a 22 metre lift on a 3.5 tonne chassis.

Ascendant Access

Ascendant, the British-based manufacturer of truck mounted aerial lifts, will show its initial model, the 22 metre A22-17 and two of its more recent machines - the 17 metre A17-12 on a 3.5 tonne and a 5.2 tonne GVW truck.

Avant Tecno

Avant Tecno builds the Leguan range of skid steer and crawler mounted lightweight self propelled boom lifts. It will show its recently introduced 80SX skid-steer based, six metre platform height scissor lift, which offers incredible performance on soft ground, thanks to its all wheel drive and low overall weight.

Bravi UK

Recently appointed Bravi UK will be showing the Bravi Leonardo compact self propelled lift with big gradeability. The only self propelled exhibitor to be located in the market place, the company plans to demonstrate the product's light weight and compact dimensions.

Britcom

Britcom will show models from the Effer range of lorry loaders.

Bronto

Finnish-based Bronto claims market leadership for big truck mounted lifts and will be exhibiting for the

first time since it began selling direct in the UK. On display for the first time anywhere will be the new 61 metre

X61XDT with its 37 metres outreach and 700kg lift capacity. Also on display from the XDT range will be the popular 46 metre X46XDT.

Bryn Thomas

Bryn Thomas - the Flint based crane specialist - will be displaying its new Tadano Faun five axle 220 tonne ATF 220G - 5 fully rigged with over 108 metres of boom and jib. The company also expects to show its new six axle Spierings mobile self erecting tower crane.

City Lifting

City Lifting hopes to unveil a brand new Comansa tower crane. The company has pioneered the use of compact top slewing tower cranes in the UK along with Spierings mobile self erectors.

Clow Group

Established in 1913, the Clow Group offers a wide range of access products and will be launching three new products at

The new Magic Platform

the show. The adjustable magic platform is a highly portable one man platform; Folscaf is a one-piece folding scaffold, and its star display will be a completely new fibreglass 3T tower system. All products are fully compliant with the Working at Height Regulations.

CPA

The Contractors Plant hire Association represents most crane, telehandler and aerial lift rental companies.

Cranes UK

Cranes UK, the Tadano Faun distributor, will be exhibiting the ATF 50G-3 All Terrain crane in Uttoxeter-based Steve Foster Crane Hire livery. The crane joins Fosters range of Faun cranes which currently covers most models from 35 tonnes upwards and will soon be joined by a new 220 tonne ATF 220G-5.

The company also hopes to show the ATF 90G-4 with hydraulic offset swingaway extension, but this will depend on availability from its new owner, Birmingham Crane Hire.

The Crane Centre - See Fassi

CraneSafe - see SMIE

CTE

CTE UK will show its 17 metre CS170 spider lift, along with its popular Z-20 and more recent Z-26 truck mounted lifts.

Dunham Cranes

Dunham Cranes is the FB gru dealer for the UK and will exhibit a range of Butti Lifting equipment, all of which is CE certified. The brick forks are manufactured to EN13155 standard ensuring quality and reliability. Products on display will include brick forks, waste skips, mortar tubs, block grabs and other lifting equipment.

The company will also show a range of Probst grabs and a tile loading platform.

Easi UpLifts

Easi UpLifts - the Irish and UK based sales and rental company - will show a combination of its specialised products available for re-rent, its young used equipment which includes aerial lifts, telehandlers and mini cranes and possibly a new machine or two.

ECO

ECO power pads will show a selection from its range of high quality Polythene outrigger pads.

Energy Batteries

Energy Batteries is the UK distributor for Trojan batteries and will be displaying its range of aerial lift batteries including the recently launched gel range. It will also be looking to discuss its range of battery replacement services.

Euro TCS Systems

Euro TCS Systems distributes the TAC-3000 tower crane anti-collision, zoning, boundary protection, and LMI safety systems.

Facelift

Hickstead-based Facelift both sells and rents aerial lifts and specialises in atrium products with a focus on Denka Lift and Falk Schmidt. Both are produced by Worldlift Industries of Denmark. The company has also devised a number of special products, including a device it has worked on with Bronto Skylift to lift large glazing panels into position while fixing them from a platform on the same truck mounted lift.

Fassi UK/Crane Centre

Fassi (UK) will be present, along with its main dealer The Crane Centre on the ALLMI stand. The company will have a 45 tonne/metre F455AXP.26 Evolution complete with fly jib and winch. The company offers a full range of loader cranes, with capacities up to 150 tonne/metres.

Gardner Denver

Gardner Denver will show models from its van and Land-Rover mounted range. The company increasingly specialises in larger five tonne van mounts which include a high van payload in addition to the aerial lift.

Genie

Genie will have a range of products on display from both its aerial lift and telehandler lines including the narrow aisle 32ft GS3232DC electric scissor lift, the narrow articulated Z40/23NRJ boom lift, GR20 Runabout, AWP20DC, SLA15 and 65ft S65 straight boom. The new compact GTH2506 telescopic handler will also be on show.

GGR-UNIC

GGR-Unic will show a selection from the six model Unic spider crane line, including the world's largest spider crane, the URW 706. It will also have one or two models

from the recently introduced Galizia pick and carry crane range with capacities from two to 25 tonnes and maximum hook heights of 15 metres. The company will also display a range of restricted access lifting equipment and vacuum lifters.

EH Hassle

EH Hassle is the UK distributor for Sennebogen and will show the first example of the new Sennebogen Multicrane 608 which bridges the gap between compact Rough Terrain crane and 360 degree telehandler.

Haulotte Group

Haulotte's exhibit will include its new 28 metre H28 TJ+ telescopic boom with its unique six metre telescopic jib, providing an outreach of 23 metres and 350kg lift capacity. The new 14 metre HTL 4014 telehandler will be in the demonstration area. With a lifting capacity of up to 4,000kg, the machine can be rapidly fitted with multiple accessories such as forks, buckets, work tools and hooks.

The company's articulated boom range will be represented by the popular HA16 PX, with more than nine metres of outreach. Other exhibits include the 10 metre Star 10 self propelled vertical mast lift and Compact 10 narrow aisle electric scissor lift.

Higher Concept

Higher Concept Software will exhibit the latest release of its Syrinx Hire Management Package in the Market Place. Syrinx is now in use at more than 450 hire companies in the UK and Ireland including Lifterz and Powered Access.

Some of the new features being demonstrated include: an operator qualifications module which can flag renewal dates and Syrinx Web WS Solution module which allows customers to answer all of their own queries, not only saving them time and effort but also freeing up hire desk resources.

A customer login from the hire company's web site allows the customer to look up details of the equipment they have on hire by site, which equipment is due to be off hired or re-inspected, what prices they are paying and a almost anything associated with their account. This includes searching for their invoices by number, date, site or order number for viewing, downloading or re-printing.

HMF

HMF - the Danish-based producer of loader cranes - will be exhibiting on the ALLMI demonstration area and will most likely show one of its models with new digging clamshell bucket.

Hyva

Hyva is introducing the new HyvaCrane range at the show. The new model is based on over 30 years of expertise in crane manufacturing, whilst incorporating the latest technological features. The HyvaCrane design includes benefits such as Extra Extension Speed and Lift Control Systems. Models range from one to 80 tonne/metres with up to 36 metres of reach. The HA10 will represent the company's compact HA line and the HB150 the heavy duty HB range.

InspHire

InspHire provides integrated rental software systems which are widely used by both general rental companies and a good number of mid to large-sized aerial lift rental companies such as AFI and Facelift.

IPAF

The International Powered Access Federation has a booth in the Market Place and will be looking to meet new and existing members while promoting its globally accepted operator and competent persons training programmes.

Jekko UK

Jekko will be showing models from its increasingly broad range of spider cranes and promoting its new UK and Ireland distribution partner as well as unveiling its first ever pick and carry crane the two tonne capacity MPK20W.

JLG

JLG will show a selection of models including the 45ft 450AJ articulated boom, 66 ft 660SJ straight boom and Toucan 1010 mast boom from the company's boom range. The 12ft platform height 1230 ES ultra

compact self propelled vertical lift with mast type lift mechanism and the increasingly popular 1930 ES compact represent the scissor lift products. Both units include JLG's direct electric drive system

for extended battery life. The telehandler product line will include the new, ultra-compact 2505 model with 2,500kg capacity and five metre lift height.

Kermco

Kermco is the new UK distributor for Faraone push around and self propelled lifts. The company will have its latest products on display. The PK60 and PK70 - dubbed the 'Push-Around King' by Kermco - have platform heights of up to 5.2 metres and no outriggers.

Kingfisher Access

Kingfisher Access offers a wide range of training courses covering powered access, alloy towers and ladders. Its courses include those certified by IPAF, PASMA and the Ladder Association.

Kranlyft UK

Kranlyft is the Maeda and Kato cranes distributor for the UK and Ireland. The company will be launching three new cranes at the show, including the new ultra compact MC174 spider crane and two new compact mini cranes with cabs, the LC383 and the larger LC1385 which significantly extend the company's mini crane range. Also on display will be the MC285, MC305, MC405 and LC785 models.

Liebherr

Liebherr-Great Britain will be exhibiting several models from its wide range of lifting equipment including the 32 TTR fast erecting tower crane, the LTF 1045-4.1 truck mounted crane as sold to Eirnecast of Northern Ireland and the very first LTM 1050-3.1 all-terrain mobile crane to be delivered into the UK which is due to be delivered to Bernard Hunter of Edinburgh.

The company will also be demonstrating the latest Liebherr mobile crane innovation - the Bluetooth capabilities of the new LTM1050-3.1. This is a must-see demonstration showcasing Liebherr's commitment to investment in the latest technology and, above all, safety. Liebherr-Great Britain's CPCIS training school will also be on the stand.

The new blue tooth system will be unveiled and on demonstration.

London Tower Crane

London Tower Crane sells and rents a wide range of tower cranes, and is keeping its display close to its chest. However it will be using the show to launch a new tower crane anti-collision device.

Manitou

Manitou the access and telehandler manufacturer will display a range of products from its Maniaccess range, which includes electric and diesel powered scissor lifts, mast booms, and both diesel rough terrain and electric slab articulated booms. The display will include its most popular models the 160 and 180 ATJ with rugged four wheel drive, fast lift speeds and multifunction operation.

The company will also display at least one model from its market leading telescopic handler line-up.

MEC

Exhibiting in the UK for the first time since establishing MEC UK under the management of Martin Davies, the company will include several models from its scissor lift range, including the 19ft micro 1932 ES, 26ft narrow aisle 2633 ES and 37ft 3772 RT compact rough terrain scissor lift.

Merlo

Merlo's unique high-speed MPR Platform will be the star of the company's stand. The new access platform concept is based on the proven Merlo Roto series of telehandlers combining a 40 km/h travel speed and rough terrain ability with up to 30 metres of working height. They can also be driven at up to six km/h from the platform (boom lowered) and at up to one km/h with the boom fully elevated. A Roto MCSS 360 degree telehandler, equipped with an EN280-compliant platform attachment, will also be on display.

Meteo Group

The Meteo Group - Europe's leading independent weather business - will be displaying its crane weather

forecasting service in the Market Place and demonstrating www.buildcast.co.uk, its crane weather forecasting service which gives plant operators, hire companies and site managers valuable information of wind speeds, precipitation and other weather factors to simplify the hazard assessment. Wind forecasts can be tailored to individual sites and includes weather conditions for various elevations above ground level.

Forecasts can be accessed via the web, email, SMS or faxback services. Its meteorologists provide forecasts, support, monitoring and consultancy services 24-hours day, 365 days a year.

Modulift

Modulift will exhibit a selection from its modular lifting beams which range from simple bolt together spreader beams to complex multi tiered systems. All are fully modular in order to reduce inventory and maximise versatility.

Monkey Tower

The Monkey Tower is a new, non powered 6.5 metre working height trailer mounted access platform, ideal for short term installation and maintenance work. Its benefits include rapid set up by a single person in about five minutes; the platform locks every 250mm for the ideal working height; operated from ground level and no PASMA or IPAF qualifications required.

The unit easily fits through a single doorway and can lift tools and equipment to the working height. It is lightweight and easily manoeuvred around site and tows behind any vehicle.

Muni-Serv

Muni-Serv specialist vehicle solutions is the Hiab Authorised Service Centre for the Northwest, incorporating sales, service and installations of lorry loaders and demountable equipment.

The company will show a variety of loader cranes from the Hiab XS range, a Multi-Lift XR26 complete with Multi-Cover sheeter system and one of the company's fully kitted service vans.

Niftylift

Niftylift is the UK's leading producer of self propelled boom and trailer lifts, with a full product range of both trailer lifts, spider lifts and articulated self propelled boom lifts ranging from 10 metres to 21 metres. The company has also become well known for its Bi Energy Battery/Diesel power packs, and most models in its range are now available with this option.

Oil & Steel

Oil & Steel will show its Octopussy 17twin with two man platform, along with one of its 18 metre truck mounted models, either the Scorpion 1812 or the Snake 189 and possibly a 14 metre Octopussy.

Pagliero Multitel

Pagliero will show two models from its truck mounted aerial lift range, including one of its highly popular MX Series - possibly the new 17 metre unit mounted on a 3.5 tonne truck. It will also show its larger brother the recently launched 27 metre MX270.

Penny Hydraulics

Penny Hydraulics, the only UK producer of loader cranes will show three models from its range of compact cranes for vans and small trucks.

Peter Hird

Peter Hird the crane and access sales and rental company will show a number of Valla machines as well as Jekko spider cranes with a brand

new glass manipulator system. The company will also unveil a brand new electric pick and carry crane. See Valla UK.

Oktopus UK

Oktopus UK distributes Klaas aluminium cranes and Oktopus suction lifting equipment. New products at the show include the Oktopus K-800 'Tiny Tower' compact tower crane with a 19 metre mast height and five metre telescopic jib and 360 degree slewing. It features a rigging footprint of only 2.6 metres square and is delivered to site in its integral trailer and is ready to work in minutes. The unit can lift up to 800kg and includes remote controls.

Klaas is also launching the new TC30 trailer crane. The unit has a working radius of 24 metres, a tip height of 30 metres, a maximum capacity of 1,300kg and variable outrigger positions. Hetric remote controls and fully hydraulic outriggers are standard, and the crane can be converted to an access platform.

The cranes will be equipped with two of the latest dual control suction lifting machines - the Oktopus GL-K 600 glazing machine and the Oktopus KT-B roofing and cladding attachment.

PM

Loader crane manufacturer PM will be exhibiting on the ALLMI demonstration area and will show a PM 35.5, a PM 4, and a PM 5.

Power Lifting Services

Power Lifting Services will be launching a new website at Vertical Days dedicated to the Böcker range of aluminium trailer and truck mounted cranes as well as the aluminium lifting accessories.

The revolutionary AHK 30/1600 trailer mounted crane and access platform, will be on display as will it's bigger brother, the truck mounted AK 32/1500. Power Lifting Services has had a successful first year as sole UK agent, securing sales not only for the trailer mounted cranes but also the first Böcker truck mounted crane sold into the UK, an AK32/1500 to Berry cranes of Northamptonshire.

Industrade - the UK agent for the Böcker range of incline hoists will also be making an appearance on the stand, showing a van mounted hoist and a Böcker vertical hoist.

Promax Access

Promax Access is the UK distributor for Platform Basket spider lifts, Cela truck mounts and Bil-Jax trailer and self propelled lifts. It will show the Bil-Jax Summit series of trailer mounted platforms along with the recently launched X-BOOM line of lightweight All Terrain lifts. Both ranges include rapid auto-leveling outrigger set up, simple touch-control pictographic operating systems with multi function speeds and articulating jibs on all articulating models. Options include rotating jibs, material handling/crane attachments and 'Drive and Set' which enables complete manoeuvrability and operation without leaving the cage.

The new Platform Basket RQG 15.75 and 18.75 spider lifts will also be on display. With a longer track length it features a unique track widening system which combines a 788mm width for passing through a doorway coupled with a wider stance and improved ground clearance for travelling on poor terrain. The two units both feature an engine and AC electric power packs for true indoor/outdoor operation.

Russon Access

Russon Access will be showing models from the Holland Lift scissor lift range, including the first Holland Lift crawler mounted scissor lift sold in the UK, a 10 metre model with the ability to level on uneven ground. It will also show two heavy duty 1.2 metre wide narrow aisle scissor lifts with 12.5 and 16.5 platform heights and a 19.5 metre platform height rough terrain scissor lift with double decks.

Skyjack

Skyjack will have a number of new products on show, including the recently introduced SJ66T straight boom which incorporates an axle-based four wheel drive system for excellent traction plus directional sensing drive steer control. The fully equipped SJ9241 - a 41ft scissor lift which is drivable at full height and offers a 7.3 metre long extended platform with dual powered extensions, self leveling outriggers - is also on display with the SJ3219, SJ4632, SJ6832RT scissor lifts and SJ45T boom lift can be seen in the demonstration area.

Skyjack SJ66T

Syrinx® Hire Software

450+ companies throughout the UK and Ireland use Syrxin®

Intelligent Hire software
that puts you in control

www.higherconcept.co.uk

- Customer Relationship Management
- Bookings and more.....

Skyking

Skyking - the access equipment division of King Highway Products which represents GSR, Wumag and Blueline in the UK and Ireland - will be showing the 61 metre Wumag WT610, the largest Wumag the company has delivered in the UK so far, which boasts an outreach of 37 metres. Also on display will be a number of models from the company's extensive range of vehicle mounted and tracked/spider platforms. These will include straight telescopic and pantel platforms on 3.5 tonne chassis and a van-mounted unit.

SMIE - Cranesafe

Cranesafe is the UK affiliate of SMIE, the leading manufacturer of tower crane anti-collision systems and other safety electronics. It will display the new SMIE DLZ operator information displays with crane activity data logging and zoning protection, preventing over-sailing of non-working areas. It will also show the new SMIE SGC20 system which provides live data from site to office. Along with anemometers and wind speed alarms. The systems are available for sale or rental with full service support throughout the UK.

Speedy Lifting

Speedy Lifting, the UK's leading supplier of lifting and materials handling equipment, will be exhibiting

the new three and five tonne aluminium gantries, which ease the burden of manual handling and are easily transportable. These will be shown alongside the modular lifting beam system and a wide range of crane equipment including the company's handheld Test, Inspection and Repair system and the Speedy-Dect Com, incorporating a wireless headset with built-in hearing protection.

Terex Atlas

Terex Atlas will be exhibiting on the ALLMI demonstration area with a model from its popular loader crane range.

The Spider Lift Company

The Spider Lift Company, previously known as Ranger Equipment, will be unveiling its new identity and exhibiting models from the Teupen range of German built spider lifts with working heights of up to 50 metres. It will also be showing models from Dino Lift which it now represents in the UK.

T H White

T H White is the Palfinger Cranes and Bison Palfinger Access Platform distributor for England and the sole UK importer of Epsilon Construction Cranes. The company will be showing a Palfinger loader crane on the ALLMI demonstration area. The Bradford-based crane division mounts and customises Palfinger cranes to suit customers demands and operates a nationwide parts and service operation.

UK Generators

The UK Generators Platform Power Pack can be installed on any engine driven scissor or boom lift where power is required to operate electrical tools and equipment in the platform basket and where hydraulic flow permits. It simply links into the existing platform's hydraulic pump with the addition of a socket in the platform basket. The increasingly popular device can easily be retrofitted to an existing aerial lift or ordered built-in on most models of aerial lift.

Universal Cranes

Universal Cranes will display the recently introduced Zoomlion crane products, including the 32 tonne QY30 truck crane along with a

model from the Ormig heavy duty pick and carry cranes. Universal's sister companies Crowland Cranes and TMC lifting supplies will also be represented.

UpRight

UpRight Powered Access has expanded significantly since its acquisition by

The Tanfield Group in June 2006 to become the UK's largest aerial lift manufacturer building 200 units a week from a 28 model range.

The stand at Vertikal Days is managed by UpRight's Master Distributor for Great Britain, UpRight Powered Access Sales UK, (UPAS) a partnership between aerial lift spare parts and service provider, IPS

and access sales company APS. The partnership was announced at last year's Vertikal Days.

With nine depots and an experienced team of service engineers, UPAS claims to provide the most comprehensive nationwide product support coverage for powered access platforms in the country.

Valla UK

Valla UK distributes the Valla range of pick and carry cranes, mostly electric battery powered that range from under two tonnes up to 90 tonnes lift capacity. On the stand will be a 12 tonne electric 120E crane and a five tonne 50E mini-mobile. The Valla range also includes a number of crawler mounted pick & carry cranes which will be represented by the 20E two-tonne model.

Versalift

The UK's leading van mounted and insulated lift producer Versalift, will show three models from its range including the ET3 6NF mounted on a Ford Transit 350 van, the ET3 8NF mounted on an Iveco Daily 50C15 and the ET3 6NF mounted on a Mercedes Unimog U3000 chassis.
