# cranes & access

FOR USERS & BUYERS OF LIFTING EQUIPMENT

Cranes & Access reaches over six times as many UK/Irish buyers of aerial lifts and lifting equipment than any other crane or access magazine, along with an exceptionally strong international readership, with over 15,000 lifting related professionals around the world reading either the printed or online editions of the magazine.

Given the wide global readership you will be surprised at how cost effective it can be as a medium to promote your products or services.

## An Australian Opportunity

Access Service Australia is an independently owned company with branches in Brisbane, Sydney, Melbourne and Perth and, for over ten years has specialised in the repair, service and rebuilding of Elevating Work Platforms.

Due to the growth in the industry, we find ourselves understaffed in technical positions throughout Australia and as a result, we are urgently looking for candidates to fill various positions.

The successful applicant must have the following credentials:

- Mechanical Trade Certificate
- Be responsible and well presented
- Have a current drivers licence, and
- Willing to carry out overtime

Whilst all applications will receive a reply, preference will be given to those who are experienced with Elevating Work Platforms. The successful applicants will have the relevant Visa's made available to them.

If you wish to apply for a hands on technical position within our company, please send a resume to:

# GOING UP IN THE WORLD

## A history of Simon Engineering and the development of the powered access industry by Denis Ashworth

Ashworth was a keen engineer from an early age, after an apprenticeship with Renold Chain, the young Ashworth found himself in at the very start of the modern powered access industry.

This book is an unusual combination of autobiography and history of Simon Engineering Dudley, a pioneer of the powered access industry and at one time the world's largest manufacturer of aerial lifts. Ashworth combines coverage of his personal life as an engineer in a fast growing competitive industry. It includes clear, well documented overviews of the challenges faced by each key new product development and how he and his engineers overcame the commercial and technical challenges.

The book is written in an easy to read manner, highlighting failures as well as successes. This coffee table sized book includes dozens of photographs from the very beginning of the industry and is a must read for anyone who is interested in powered access or in comparing modern day engineering challenges with those of an entirely different era.

The book will be published this summer with pre-publication orders selling for £14.50, plus £3.50 postage and packing, a £5 saving compared to the published price of £19.50.
