Lifting Gear

UK & Ireland
2012

www.vertikal.net

Each year our guide grows and any omissions are picked up, hopefully making it an even more useful document. This year has seen quite a few changes and additions as new manufacturers come on the scene and others move. As with any listing like this it is always going to be a work in progress, so please do let us know what we can do to correct or improve it.

SYRINX[®] No.1 for Cranes & Powered Access

900+ companies worldwide successfully use Syrinx[®]

SPARROW CRANE LIMITED

"Syrinx has certainly brought all of this information together into one database and improved the efficiency of our business from start to finish." Phil Mitchell

Rose Access Solutions Ltd

"Syrinx is our ideal solution." Gary Rose

KIMBERLY GROUP

"When we were undertaking due diligence on the acquisition of another powered access company, who were already using the Syrinx system, we noted that Syrinx gave them a number of operational and financial functions that we didn't have with our existing system. Kimberly Access are a focused operational business and so this excited us. Syrinx is now set up as our group rental system and Higher Concept Software have exceeded all our expectations in terms of the product and their customer service." Ray Ledger

Lifterz

"We chose Syrinx because of its stability and reliability - a great improvement on our previous system." Malcolm Bowers

platform
Lift & Move

"Syrinx is the product best suited to the Powered Access Industry. The service was professional through from point of sale to data management to installation making the transition very easy." Duncan Howard

1UP ACCESS

"After a disastrous 3 months with our initial supplier we switched to Syrinx and within 1 day we were up and running with all our plant information on the system. I would recommend Syrinx again and again, it's easy to use and the reporting is excellent. I can't thank Higher Concept Software enough, they pulled out all the stops when we really needed them." Ben James

HORIZON PLATFORMS

"Syrinx is easy to use, self explanatory and yet sophisticated." Ben Hirst
