FOR USERS & BUYERS OF LIFTING EQUIPMENT

Cranes & Access reaches over six times as many UK/Irish buyers of aerial lifts and lifting equipment than any other crane or access magazine, along with an exceptionally strong international readership, with over 15,000 lifting related professionals around the world reading either the printed or online editions of the magazine.

Given the wide global readership you will be surprised at how cost effective it can be as a medium to promote your products or services.

TECHNICAL SALES MANAGER

Job Posting

Hawks Crane Hire is a strong and growing contender in the fast paced industry of crane hiring. As part of our growth plans we aim to break into the heavy lift sector; the strategy to achieve this is to concentrate on developing the experience of our management team on heavy lifting. Therefore, we are looking for a Technical Sales Manager who can represent our image and uphold our respected reputation within the industry.

We are looking for someone with a personable character who is able to network well within the construction industry. They will need to feel comfortable handling high value sales and be good at closing opportunities, whilst working within a team environment. The ability to demonstrate a strong use of technology and excellent IT skills is essential for this role.

The successful candidate will be responsible for sales & business development, having complete responsibility for the sales cycle from start (finding leads) to finish (closing of hire/sales). This includes all processes such as filling out PQQ's, quote production, updating salesforce, proforma invoicing and account management. Three out of five days will be spent out on the road (within the UK) and there will be some infrequent overseas travel to build and strengthen relationships with our overseas customers.

For the successful candidate we can offer:

- High base salary
- Excellent commission based on gross profit targets
- Company car
- Company laptop
- Company mobile

If you have the experience and attributes to meet the requirements above and you are passionate about progressing your career within the lifting industry, please email hr@hawkshire.com for a full job specification for this role.

CHIEF EXECUTIVE

THE CONSTRUCTION PLANT-HIRE ASSOCIATION (CPA)

The Association represents some 1600 member companies on whose behalf it offers a very wide range of services including Health and Safety guidance and support, contractual, economic and legal aspects as well as the general promotion of the Members' interests. The Construction Plant-hire Association is widely respected throughout the Construction and allied industries and enjoys strong working relationships with the Government, HSE, CITB and Client industries.

The Council of the Association invites applications for the key post of Chief Executive from suitably qualified professionals with a construction plant industry background. The applicants should have high levels of drive and commitment, proven broad based management skills at a senior level and excellent interpersonal skills. They will take responsibility for the further growth of plant-hire's leading Employers' organisation.

The successful candidate will be based at our City of London office and will be offered a remuneration package commensurate with this prestigious appointment.

Applicants should apply in writing or email demonstrating relevant skills and experience accompanied by a full CV no later than the 28th February 2018.

It is anticipated that interviews for the selected applicants will take place in Mid-March 2018

Please mark your application STRICTLY PRIVATE AND CONFIDENTIAL and Email: colin.wood@cpa.uk.net or post to: -

Construction Plant Equipment Fitter

To Maintain Heavy Plant Equipment for the British Military

Attractive salary + overtime + benefits; excellent work life balance

Location - Woodbridge

A challenging and rewarding opportunity is currently available in ALC, an innovative joint venture enterprise between Amey and Babcock International.

You will be responsible for helping to ensure that a large fleet of mainly heavy plant equipment remains permanently in optimum condition to meet the global requirements of our Armed Forces in the East Region; from cranes and access platforms, to earthmovers, rough terrain forklift trucks and dump trucks. This will involve working to agreed performance targets, servicing and maintaining equipment and carrying out regular in-depth inspections and refurbishments.

Preferably you will be qualified to at least NVQ Level 2 or equivalent in mechanical engineering; however more important is experience of heavy plant mechanical maintenance, fault-finding and servicing to meet stringent customer quality expectations and deadlines.

In return for delivering groundbreaking customer service, we offer an attractive salary with the potential for overtime plus ongoing training and skills development.

Work van included for commuting and attending breakdowns as required.

To apply, please send a CV by email to:

vacancies@ALCVehicles.com

Service Engineer

We have new positions available for mobile service engineers to look after our modern fleet of access machinery mainly in London and the South East.

The positions will involve a variety of engineering tasks including the repair, service and inspection of machines in our depot and in the field.

Candidates should be self-motivated, competent at fault finding and preferably qualified to NVQ Level 2/3 - CAP certification would be advantageous.

Please Contact Lucy Wakeling at lucy.wakeling@jms.co.uk or 0845 457 0000 for details today

(NO agency calls please)

IPAF PAL Card welcomed on Build UK sites

IPAF Approved Training Centres train more than 150,000 operators every year in the safe and effective use of powered access platforms.

The IPAF PAL Card is recognised worldwide across industries as proof that your operators have been trained to the highest safety standards and meet all legal requirements.

Find an IPAF approved training centre at www.ipaf.org

The IPAF operator training programme is certified by TÜV as conforming to ISO 18878.
