

# KRAN & BÜHNE

Das Magazin für Kran- & Arbeitsbühnen-Anwender

## Ihr Vorteil!

- Ja, ich abonniere *Kran & Bühne* für ein Jahr (8 Ausgaben) für 26,- Euro (inkl. 7% MwSt.) frei Haus (bzw. 39,- Euro für Abonnenten außerhalb Deutschlands).
- >> Name/Vorname: .....
- >> Firma: .....  
*Umsatzsteuernummer (nur bei Firmen)*
- >> Straße/Postfach: .....
- >> Postleitzahl/Ort: .....
- >> Land: .....
- >> Tel.: .....
- >> Fax: .....
- >> E-Mail-Adresse: .....
- >> 1. Unterschrift des Abonnenten: .....

Um leistungs- und wettbewerbsfähig zu bleiben, benötigt die Industrie hochqualifizierte und ihre Märkte betreffende Informationen. Diesem Verlangen kommt *Kran & Bühne* mit praxisorientierten Artikeln nach. Mit unseren Publikationen helfen wir den Lesern, gerade bei härteren Marktbedingungen, fundierte Entscheidungen zu treffen. Die Artikel werden von einem erfahrenen, international und in Deutschland tätigen Journalistenteam verfasst. *Kran & Bühne* liefert dem Leser Neuigkeiten und Baustellenberichte. Ein wichtiger Bestandteil sind dabei harte Fakten darüber, welche Ausrüstung für welche Einsätze geeignet ist.

## Abonnieren Sie jetzt einfach & bequem!

Per Fax: (07 61) 88 66 814  
 oder per Post: Kran & Bühne | Sundgauallee 15 | D-79114 Freiburg  
 Tel. (07 61) 89 78 66-0 | Fax (07 61) 88 66 814 | E-Mail: info@Vertikal.net | www.Vertikal.net

- >> Ich wünsche folgende Zahlungsweise:
    - Bargeldlos per Bankeinzug  gegen Rechnung  
*(nur in Deutschland)*
  - >> IBAN: .....
  - >> BIC: .....
  - >> Geldinstitut: .....
  - >> Firma: .....
  - >> Postleitzahl/Ort: .....
- Hiermit bestätige ich, dass die Abbuchung des jährlichen Abo-Betrages von 26,- Euro für o.g. Firma/Anschrift vorgenommen werden kann.
- >> 2. Unterschrift des Abonnenten: .....

Widerrufsgarantie: Das Abonnement kann jederzeit und ohne Angabe eines Grundes widerrufen werden. Die Kosten für nicht zugestellte Ausgaben werden zurückerstattet.

## ALLMI accredited Lorry Loader Operator Training Providers

Nationwide

# Pre-operational checks campaign - reminder

The effective maintenance of a lorry loader is an essential part of the equipment's safe operation, and pre-operational checks are a crucial element of this regime. The checks are also a legal requirement and the Driver & Vehicle Standards Agency (DVSA) has the authority to issue on the spot fines for non-compliance. For these reasons, it's imperative that pre-operational checks are carried out and that lorry loader operators undergo the necessary training in order to fulfil this part of their job role.

As a key part of its ongoing campaign to raise awareness and further improve industry practice in relation to this important topic, ALLMI has made the following tools available:

- A web based video: 'Pre-Operational Checks'. Broken down into three sections, this covers the most common lorry loader applications, i.e. hook, builders' merchants and utilities.

- A ready-made toolbox-talk template for use by supervisors and managers.
- Pre-Operational Check Pads and associated Windscreen Holders.

To view, download or order the above, contact ALLMI or visit [www.allmi.com](http://www.allmi.com)

## ALLMI / ENA partnership reminder

ALLMI is working with the Energy Networks Association (ENA) to promote the organisation's 'Look Out, Look Up!' campaign, which concerns the dangers of working near overhead power lines.

The ENA has made a range of campaign tools available, including (but not limited to) the following:

- A cab warning sticker, which also contains important information in the event of contact with an overhead power line.
- A safety leaflet containing 'Top Tips' on this subject.
- A hard hitting video, bringing home the consequences and impact of accidents of this nature.

The ENA's cab sticker.

For access to the above tools, as well as the wider campaign material, visit: [www.allmi.com/overheadpowerlines](http://www.allmi.com/overheadpowerlines)

## Thorough examination of loader cranes on waterborne vessels

ALLMI's Guidance Note series continues to expand, with the recent publication of 'GN031 - Thorough Examination of Loader Cranes on Waterborne Vessels'. Developed in consultation with the Maritime & Coastguard Agency (MCA) and aimed primarily at owners, operators and Thorough Examiners working in this specialist sector, the document explains how the requirements differ for each of the following topics, when compared to those for a crane mounted on a vehicle:

- Legislation and standards
- The 'Competent Person'
- Frequency of testing
- The testing process
- Reports of Thorough Examination
- Reporting defects
- Keeping of information

For a complimentary copy of this Guidance Note, please contact ALLMI.

## The importance of product familiarisation

ALLMI has long highlighted the importance of product familiarisation and the problems that arise when this training is not provided to operators.

ALLMI technical manager, Keith Silvester, comments "There is a clear legal duty on the part of the employer and the employee for lorry loaders to be operated safely, and an important aspect of ensuring this is for the operator to be fully conversant with the loader crane being used. Therefore, the operator must not only undergo the appropriate basic training, but also receive machine familiarisation at the point of handover. It is essential that the operator is familiarised with any features that are specific to that particular type of crane, because with manufacturers continually improving their designs, experience of using one make or model does not mean that an operator will be conversant with any other."

ALLMI chief executive Tom Wakefield, added: "All parties need to understand the importance of product familiarisation and the significant problems that can occur when it does not take place, or when it's not carried out to the correct standard. The importance of documenting the process should also be fully appreciated, and this includes situations where a customer declines the offer of familiarisation, in which case their response should be appropriately recorded and signed off."

ALLMI's guidance is divided into two parts, containing a template form to be used by those carrying out product familiarisation, as well as a supporting document explaining each of the areas to be covered during the process and details of the audit trail that should be put in place.

The following are just some of the areas covered by ALLMI's documentation:

- Rated capacity load charts
- Air suspension
- Control levers / remote controls
- Un-stowing / stowing functions
- Stabiliser / outrigger deployment / stowing
- Safety systems
- Crane & attachment functions
- Operator checks & maintenance
- Documentation

ALLMI's product familiarisation guidance is freely available and readers are encouraged to contact the association to obtain a copy, or to request assistance in relation to this important topic.
