# A POSITIVE RETURN TO NORMAL

This year's Vertikal Days returned to the East of England Showground in Peterborough, at its more traditional time of year following the disruption to the past two shows due to the pandemic. Despite the rain on the first day, and the fact that it was less than eight months since the delayed 2021 event, the numbers of visitors attending and their positive mood remained high on both days, with Thursday possibly being the best day two ever. The incentive was more than 200 manufacturers' and service suppliers' products on display, with many worldwide, European or UK launches.

**This was the 15th Vertikal Days which began in 2007, and over the years it has grown steadily in terms of product diversity and visitors. Many regular exhibitors reported record activity and order intake, hailing it the 'best show yet'.**

This extended review will be purely pictorial and

as there were so many products and exhibitors it is impossible to cover every stand or exhibit - so apologies in advance. We will, of course look to cover all of the products over the next few issues. The next Vertikal Days will be held on May 10th & 11th at the same venue.
