

Conexpo is extraordinary. Why? Because it combines the bizarre, surreal architecture and night life of Las Vegas with the latest technology and equipment of the construction industry. Add to that a very liberal sprinkling of glamour, gambling and glitz and you have a near ideal location for next year's biggest international gathering of the construction industry.

Business-wise the show will bring you right up to date with all that's new in the lifting industry. All the big names will be there and some smaller ones from the US that you may not previously have heard of.

The show takes place right next to the Las Vegas Hilton – in other words in the centre of town and just off the famous "Strip" which is home to the casinos, sports arenas and shows that are known throughout the world. This means the cranes, platforms and a whole gamut of construction equipment are sandwiched in between one of the biggest adult playgrounds in the world – and the lifting industry knows how to play.

So, how can you get there?
